## Recent Operations

By Paul Rardin

The final political rally in Palm Beach county before the first primary election is scheduled for Monday night under sponsorship of the County Democratic Committee. Hundreds of Glades voters plan to attend the rally, which has always in the past drawn thousands of people from every corner of the county.

Candidates will shake the bushes night and day during the remaining hours before election. On Wednesday morning there will be several disappointed candidates—of all of 'em can't be elected. Nobody knows better than this writer.

Elmer Burgess, editor and publisher of The Sunshine Special in West Palm Beach, is one of the straightest-shooter editors in the state. When Elmer believes in something he is bound to tell the world about it. And, as a result, he is the kind of man who makes the newspaper profession respected throughout the nation. For sometimes there is just one way or no way to do a thing, and one way or no way to do a thing, and one way or no way to do a thing.

I would like to have the brown-sauce crowd, Wednesday morning around a lot of hotels where various political headquarters are located.

Godwin, Rogers & Dulany Presented Candidacies Wednesday

A representative for Jerry Carter for United States Senator and Burton Schoep, of Tampa, for Governor, were booked for political addresses at "politician's corner" in Pahokee, Wednesday night, but the speakers failed to arrive for their dates.

As the loud speaker equipment had been stationed, the Governor's representative turned it over to the candidates for Mayor of Pahokee for speaking. But, if he were elected, and given such support, he would do his best to give Pahokee a good administration and administration.

George Rogers, now city building inspector, also made a short talk, in which he made a bid for the support of the voters, promising a progressive administration.

John Dulany, the incumbent as Mayor for the past five years, spoke in the manner which is capable of doing. He reviewed some of the advancements and improvements that had come to Pahokee in that period, and the improvement projects at some length. He stated that he had endeavored to be a good Mayor and thought he had been one, and asked for support that he might continue in the work that has been started. **VERSATILE FLORIDA**

Florida is a state of great and varied natural resources. Some of us know that the state produces more than 90 per cent of all the canned grapefruit and grapefruit juice in the world. More of us know that the waters off our coast contain the biggest and gamiest fish in the world. Fewer realize the great possibilities we have for the development of resources which

have hitherto remained untouched.

This state has 100 varieties of soil, composed of sand, clay and organic matter. It has more than 3,000 flowering plants, greater than any other state. Its annual mean temperature ranges from 68 to 72 degrees, comfortable living for every fortunate resident of Florida.

We have unique activities and enterprises. How many of us realize that cotton is produced in Florida? Yes, sir, cotton is grown in the rivers of the west coast. Over in Santa Rosa county, we grow some of the finest pecans in the world, the Mahan variety. At Key West, we can turtles. At Gainesville there is a modern modern oil pressing plant. Florida has four paper mills and a rayon pulp mill. And its turkeys lay "golden eggs" believe it or not. The eggs of the Royal Palm turkey, developed in this state, sell for \$10 apiece or \$120 a dozen. —St. Petersburg Times.

CANDIDATE WHITEHAIR WILL STRIVE TO CREATE A NEW AND REAL CONFIDENCE IN THE MINDS OF FLORIDIANS

A hard and fast program is impossible in a growing state such as Florida, but if we hold fast to the principles of old time honesty and business integrity, coupled with progressive and long-view planning, we will succeed.

Let us subscribe to the real, true Florida spirit, because no state can be better than the manifest spirit of its people, and if all of us from all sections will meet on the common ground of Florida's future, our state will move out of the dawn and burst resplendent into the full sunshine of its real stature.

I believe the Chief Executive of our State should encourage people to own their homes, establish businesses, improve working conditions, increase the value of their property, secure the future of their investments, educate their children, maintain public health and provide recreation.

I will strive to create a new and real confidence in the minds of the people by appointing capable, practical, experienced and honest men and women to all appointive positions. The opportunity of serving at this critical time in the development of our state presents a great challenge and I am eager for the opportunity of meeting it with all the vigor and vitality at my command.

## Whitehair Has An Unusual Platform

Deland, May 2. (FNS) — Bo-caine he consolidated his forces early, perfected a strong organization, and has consistently drawn the largest rally crowds in the history of Florida politics, Francis P. Whitehair of Deland feels confident he will be high man by

many, many thousands of votes in the primary Tuesday. Whitehair has refrained from making any attacks on his opponents in the race and last week warned his friends: "If you can't say anything good about our foe, don't say anything."

The successful lawyer, citrus farmer and business man contends a man can be elected governor of Florida and run a race from political fifth and vilification. "I still cling to the ideal that a man can be governor and retain his self respect and honesty. I am making this race under my own power and I have made neither promise nor commitment number one, nor will I."

Whitehair has a most unusual program of economy in government in order to obtain funds to care for the human needs of the people of Florida. "We are going to legislate one time in the terms

of human beings. There is plenty of money in the Florida treasury each year to care for the needs of our old people, better our schools, the lot of our teachers, our dependent children and the general public health if we will spend our monies for the people and not the politicians."

He recommends the elimination of the myriad of state bureaus, commissions and boards. "The state's income has increased \$11,000,000 in the last seven years and still our treasury is empty and the state, unable to pay its bills, something must be done about it and Francis Whitehair proposed to do it."

### SEMINOLES—NO TALKER

Nat Lewis, formerly connected with the Indian work in the Big Cypress, in the census enumeration for the Florida Seminoles, that reports that he finds no co-operation from the Indians. Men whom Lewis has known for years refuse to give him any information at all, and he has been forced to get information from outside. The tribe officials passed the word out: "No talk to man with big book," and that is just what they would be punished at the Green Corn Council next month.

### VETERAN DIES

Since the recent convention of the GAR of Florida, at St. Cloud, two of the 36 surviving northern veterans have answered taps, the latest one to be Col. A. U. Cook, aged 95, of St. Cloud. St. Cloud at one time had a post of 800 members, but it has now diminished to five, and these comrades were unable to conduct the funeral ceremonies for their dead comrade, so the Spanish War Veterans of that city conducted these honors for the Post.

Col. Cook's funeral was largely attended. He had been most active in the affairs of the GAR and had served in several of the Department's offices during the years since the war between the states.

## Council Prepares For City Election

### Belle Glade Wants Library

Belle Glade citizens want a public library, yet a full time librarian in charge, and have taken the matter up with the state and WPA officials, to find out the necessary procedure to secure such an institution.

### Local Boys Play Away From Home

Pete Bardin, who has been in training at West Palm Beach the past season, has been signed up by the Ocala team of the Florida state team and has pitched one winner for the team since he joined it. Joe Tom Boynton seems to be making good at Hot Springs, Ark., so he is being most behind the bat by the manager of that team. Press clippings show that Joe Tom is popular with his team mates and his fans, and they all wonder at his speed and a training which he got on the old gridiron at Lair field under Frank Hibdon.

### MAY HAVE NEW CONGRESSMAN

Under the new census now being taken it is expected that the increased population of Florida, will mean an additional member in the National House of Representatives. If this becomes true, it may mean the re-districting of the congressional districts, or a Congressman-at-large might be named for this new position. Either way it will create a big political stir among the state politicians.

### Improve Streets Is Belle Glade Plan

Belle Glade council has decided to proceed with its proposed plan to provide improvement of streets, sidewalks, and drainage, and a plan and specifications will be prepared on which bids will soon be asked by it.

### CALL SPECIAL ELECTION

The Board of County Commissioners of Palm Beach County have called a special election for May 25th, on the question of establishing a mosquito control set-up in the county, having found that there were more than a required number of petitioners to meet the law's requirements for the calling of such an election.

## Sweaters Awarded To Blue Devil Men

The young men who formed the Blue Devil football team of 1939, the past week were presented by Coach Holston, with the coveted sweaters, which they are now wearing with much pride. Those to whom the trophies were awarded were: W. A. Stevens, Roy and Johnnie Runkle, Marvin Unwin, Jack Fowler, Elmo Hausch, Vance Denton, Carl Cowen, Walter Cross, Z. J. Frasure, Osborn Eichen, Calvin Peacock, Walker Peair, H. B. Baxter, Kermit Dell, Marion Spooner, Dan Boardley and Bill Allen.

Carter Winstead, team manager and Vician Allen, mascot, were also given blue and white sweaters. Jackets were presented to Mary Jarnes, Anna Doman, Ona Fay Padgett, and Leroy Albright, the cheer leaders.

Carl Thompson, of the Belle Glade junior school, has sent up

four players to try out for the 1940 team, and in elongated Stone he thinks he has a star punter for the team. Stone was seen in action in six man play last fall, and improved all with his fine work in that line. South Bay and Canal Point also will furnish several additional players for the squad.

### DIAMONDBALL

Pahokee's Junior High soft ball team played South Bay two games last week, as winners up for the game to be played at Delray. Pahokee won both of these games. The team which represented the Glades at Delray was made up of players from the three junior high schools, but despite that fact, Delray won the contest.
